CORVETTES UNLIMITED CORVETTE CLUB, INC.
ATTENDS *FREESTATE'S CORVETTE WEEKEND*
IN BIG NUMBERS
Article by: Dave Kinsey
Pictures by: Dave Kinsey & John and Susan Schweibinz

CU members had a busy weekend (Oct. 4,5,6, 2019 in Ocean City, MD. It also seems to be the premiere event that our club attends every year and never gets tired of it. We have had some members attend this event for many years.

This year was interesting because we had members arrive on various days throughout the week even though it officially started on Friday. We had a total of 13 *Corvettes* and 26 members attend the event . There were approximately 675 *Corvettes* Parading the Boardwalk, let alone all of the "static" ones in and around the parking lots of Ocean City, MD.

This is how our group worked it out:
On Wednesday, we had 4 *Corvettes* arrive in Ocean City. The members were: Joe & Linda Betterlli, Bob & Kathy Aussenberg, Ted & Cookie Trembley, and Randy & Connie Camp.

On Thursday we had 2 Corvettes arrive: Dave & Joanne Kinsey arrived as well as Rich & Bonnie Thomas.

On Friday, we had Beverly & John Taormino, John & Susan Schweibinz, Bob & Kathy Austino, and Tom & Jean Brown with Ken & Liz Tomasello and Tim & Debbie Gasparovic & Barry Holman & daughter arriving later that day.

We thank Ted & Cookie Trembley for being our Wagon Masters for Wed., Beverly & John Taormino for being our Wagon Masters on Friday, and Dave & Joanne Kinsey for being our Wagon Masters for taking us to NJ on Sunday.

Barry Holman and his daughter (soon to be members) participated in the *Parade of Corvettes* up the Boardwalk.

All in all, this turned out to be another great trip with various club members visiting towns outside of Ocean City, as well as walking the boards and eating out in various groups or individually. We had a great time being together and having our usual welcoming cocktail hour h'ourderves as well as snacks, finger-foods, and cold cuts Friday evening at Dave and Joanne's suite. Thanks to all for making this a great time! See the pictures below.
